

MILITARY KIDS CLUB ANNOUNCEMENT

Saint Mary Catholic School's Military Kids Club is designed to address the unique lifestyle of military families. The club offers support in the form of easing transitions, meeting other military children, learning and developing coping skills, and providing stability during deployments, and PCS moves. Activities include, but are not limited to, monthly before-school meetings, Purple UP month celebrations and other events throughout the year. All students from families of active-duty, reserve, guard, and retired military personnel are welcome to attend.

Currently, we have four volunteer staff and the capability to serve our students in room 422. As Saint Mary Catholic School has continued to grow, so too has its military student population. For reference, children from military families encompass approximately half of our student population. Saint Mary Catholic School Military Kids Club wishes to accommodate all children from the families of our military community. At this time, we do not see the need to limit our group to a certain number; however, if all our military-connected students were to attend Military Kids Club on the same day, we would not have the capacity to conduct meetings in room 422. Therefore, starting in January, we are asking parents with students intending to participate in monthly meetings to join the new Dojo group "Military Kids Club". Moving forward, if our club continues to grow, it may be necessary to have students of current active-duty military members take precedence due to the unique needs attributed to transitions, moves, and deployments.
